Objectives

The Business Analysis Masterclass is designed in a way that it helps the participants to understand how to identify business needs and define solutions to business problems. The resulting solutions could include Systems Development, Organizational Change and/or Process Improvement.

The training would help the participants obtain their CBAP® certification in one sitting in 90days or less.

About IIBA-CBAP

Certified Business Analysis Professional (CBAP®) is a business analysis certification provided by International Institute of Business Analysis (IIBA)®.

A CBAP® recipient is an elite member of the business analysis community, and a recognized expert in identifying the business needs of an organization in order to determine business solutions.

More and more companies are recognizing the CBAP® designation and the value/expertise these professionals bring to their organizations.
